

New Museum Celebrates Hershey Founder's Life & Legacy

Buchart Horn prepared land development and site plans and conducted traffic impact studies to help the M.S. Hershey Foundation preserve The Hershey Story within a new Museum on Chocolate Avenue. This remarkable two-story, 40,000-square-foot museum will feature exhibits and displays detailing the life and legacy of Milton S. Hershey and first-hand accounts of the growth of the company and the community over the past 100 years.
